

Cozistat

Application

Programmable Thermostat with Digital Display and Sensor for use in conjunction with Cozi Underfloor Heating Systems.

Dimensions

94mm x 87mm x 44mm (H x W x D)

Technical Data

Classification	Safe Area, for Indoor Use
Location:	Indoor Use (IET 17th Edition Outside Zones, not within Zones 0-2 in Bathrooms)
Operating Temperature:	5°C to 35°C
Switch Type:	Mechanical
Sensor Length:	3m
Connections:	1 x Heater Load, 1 x Power In, 1 x Sensor
Mounting:	Wall Mounted into 40mm deep single gang junction box
Voltage:	110/230V AC; 50Hz
Max Load:	16A
Hysteresis:	±1°C
Approvals:	CE Marked

Other

Thermotex COZI™ Thermostat (CoziStat) is designed to be compatible with CoziMat and CoziFloor Underfloor Heating Systems

Thermotex recommends the use of a 30mA residual current device for maximum safety.
