

# GRX Self-Regulating Heater Tape

## Applications

Gutter and Down Pipe Snow and Ice Prevention

## Power Output & Dimensions

**Power Output:** 36W/m in Iced Water  
**Dimensions:** 13.4mm x 6.7mm

## Standard Specification

**Classification:** Safe Area  
**Traced Surface:** Metal or Plastic Rain Water Systems  
**Chemical Resistance:** Mild Inorganic Solutions  
**Solar Performance:** UV Stabilised  
**Maximum Exposure Temperature:** 85°C (intermittent)  
**Minimum Installation Temperature:** -50°C  
**Minimum Bend Radius:** 50mm  
**Maximum Circuit Length:** 120m  
**Voltage:** 230V

## Options

Available as a Pre-Terminated Heater

## Other

**Approvals:** CE Marked

*Thermotex recommends the use of a 30mA residual current device for maximum safety*
